21 November, 2024

The Secretary

Trade Development Authority of Pakistan (TDAP)
Karachi

SUBJECT: MARKET INTELLIGENCE REPORT ON KINNOW

Kindly refer to the above cited subject.

2. The brief market intelligence report on Kinnow in Indonesia and the SPS requirements including the latest regulations is enclosed herewith for sharing with the relevant stakeholders.

Best Regards

(Muhammad Naseem Rashed)
Minister, Trade & Investment

Copy to:

Maryam Aslam
Section Officer (SEA-I)
Ministry of Commerce
Islamabad

Brief Market Report on Kinnow

1. Introduction

Indonesia is the 8th most important Kinnow market for Pakistan after Afghanistan, UAE, Russia, the Philippines, Saudi Arabia, Kazakhstan, and Oman¹. Indonesia is a sizable producer of citrus with annual production of around 2.8 million metric tons in 2023². However, most of this produced is consumed domestically with only a meagre export worth US\$ 0.73 million to Malaysia, France and Netherlands³.

2. Mandarin Imports by Indonesia

In 2024, the Indonesian citrus imports were 86,579 tons worth US\$ 153 million⁴. According to the National Bureau of Statistics (BPS), Indonesia's average annual imports during the last three years was around 93,163 tons worth US\$ 176 million. China has gained 71.6% of the total market share. On the other hand, Australia accounted to around 15.09% of Indonesia's imports, while Argentina has 1.09% of Indonesia's imports. The remaining import market for Indonesia is shared between other countries including Egypt and USA.

Import of Mandarin by Indonesia (US\$)

	2020	2021	2022	2023	2024
<i>World</i>	<i>98,789,385</i>	<i>174,804,979</i>	<i>182,805,605</i>	<i>184,727,475</i>	<i>153,440,196</i>
China	60,205,151	102,792,195	137,119,233	143,845,909	109,928,770

⁴ Statistics Indonesia (BPS)

3. Pakistan's share

Pakistan exported Kinnow worth US\$ 17.06 million in 2024 with a share of 11.12% of Indonesian mandarin market.

4. SPS requirements

Following SPS requirements need to be fulfilled for Kinnow exports to Indonesia:

- a. Import Recommendation Letter (RIPH) and Import Permit (SPI) is required by Indonesian Ministry of Agriculture and Ministry of Trade respectively.
- b. Pre-shipment inspection by SGS is mandatory.
- c. Good Agricultural Practices Certificate (GAP) is required.
- d. Good Handling Practices Certificate (GHP) is mandatory.
- e. Certificate of Analysis issued by duly approved laboratories is mandatory.

5. New/latest regulations

This Mission is intensely engaged with relevant ministries and organizations relating to our exports of Kinnow. The Indonesian Quarantine Authority Agency has communicated a latest regulation which require prior notice (Code of document: K-1.2) by the exporting country to the IQA prior to the departure of the said commodity to Indonesia (detailed presentation enclosed)

Under the new decree, exporters must submit a Prior Notice to the IQA, providing a detailed description of goods to ensure compliance with Animal, Fish, or Plant Quarantine Requirements prior to departure from the country of origin.

The Pakistani exporters can complete this Prior Notice application through <https://notice.karantinaindonesia.go.id>. Technical information regarding the prior notice application process is enclosed for your reference. This regulation has come into force on October 1, 2024.

6. Recommendations:

In 2023, Kinnow accounts for around 4.62% of Pakistan's exports to Indonesia, whereas in 2024 (January to September), Kinnow has accounted to 4.14% of Pakistan's exports to Indonesia. Timely issuance of Kinnow quota every year in January has become a recurrent issue because quota is issued at a time when Pakistani Kinnow season is at its peak. Following is suggested to increase Pakistan's share in Indonesian market.

- a. Recently, Indonesia has waived the condition of GAP certification for few countries, e.g., Australia. Pakistan should pursue the case with Indonesian authorities to get the similar concession for Pakistani Kinnow, and this Mission is working on it.
- b. Ministry of Commerce should take lead in leveraging the lopsided PTA with the Indonesian authorities and maintain pressure to issue Kinnow quota timely.
- c. Increased participation of Kinnow growers/exporters in next edition of Sial Interfood is recommended.
- d. A Zoom meeting with this Mission is requested to DG Agro, TDAP with exporters of Kinnow from Pakistan so that a comprehensive discussion/strategy is finalized to overcome challenges/bottlenecks for increasing our Kinnow exports in Indonesia.

Implementation of Prior Notice and Quarantine Certificate
