Chapter 33	Essential oils – extracted directly from citrus fruit peel

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
Chapter 06		Live Trees and Other Plant Parts; (bulbs, roots, cut flowers and ornamental foliage)		
1	060110	Bulbs, tubers, tuberous roots, corms, crowns and rhizomes, dormant	 Tulips (bulb crop)	0601.1010 Bulbs; 0601.1090 Other Dormant bulbs, tubers, corms and rhizomes are resting planting materials that can be stored and planted later to produce flowers, vegetables or other horticultural crops. Pakistan handles these materials mainly through nurseries and specialized horticultural suppliers. Local/Urdu name: بلب / گتھلیاں.
2	060120	Bulbs, tubers, tuberous roots, corms, crowns and rhizomes, in growth or in flower; chicory plants and roots	  Plants in growth Bulbs in flower	These are actively growing bulbs, tubers, corms, rhizomes and related planting material, sold for immediate establishment or flowering. They are mainly handled by commercial nurseries and ornamental-plant suppliers. Local/Urdu name: بلب / جزیں کی کاسنی / گتھلیاں.
3	060210	Unrooted cuttings and slips	 Nursery cuttings	Unrooted cuttings and slips are young plant pieces used to multiply fruit, ornamental and other horticultural plants before they develop roots. In Pakistan, nursery production is spread across commercial horticultural districts rather than one single hub. Local/Urdu name: شاخیں / قلمیں.
4	060220	Trees, shrubs and bushes, grafted or not, of kinds which bear edible fruit or nuts	 Fruit tree sapling	These are live nursery plants, including grafted or ungrafted trees and shrubs intended to establish orchards for edible fruit or nuts. Major nursery activity follows Pakistan's fruit-growing belts, including Punjab's citrus and mango regions and the northern fruit-growing areas.
5	060230	Rhododendrons and azaleas, grafted or not	 Flowering shrub	Rhododendrons and azaleas are ornamental flowering shrubs valued for attractive blooms and foliage, mainly for landscaping and nursery trade. Their commercial production in Pakistan is limited and concentrated with specialty nurseries in cooler areas.
6	060240	Roses, grafted or not	 Rose plant	Rose plants, whether grafted or ungrafted, are sold as live nursery material for gardens, landscaping and future cut-flower production. Commercial nursery and flower activity is concentrated around major urban and peri-urban horticultural markets. Local/Urdu name: گلاب.
7	060290	Other live plants (including their roots), cuttings and slips; mushroom spawn	  Live plants Mushroom spawn	Mushroom spawn is the living seed-like culture used to start mushroom production in a growing substrate. Pakistan's commercial mushroom activity is mainly controlled-environment production serving urban markets. Local/Urdu name: اسپان مشروم.
8	060310	Fresh cut flowers and flower buds, for bouquets or for ornamental purposes	 Cut flowers	Fresh cut flowers are harvested for bouquets, floral decoration and events and include a wide range of ornamental species. Roses dominate Pakistan's commercial flower trade, while other flowers are supplied by specialty growers around major cities. Local/Urdu name: کلیاں کی پھولوں / پھول.
9	060311	Fresh cut roses and buds, of a kind suitable for bouquets or for ornamental purposes	 Cut roses	Fresh cut roses are harvested flower stems prepared for bouquets, floral arrangements and events; stem length, bud stage, colour and vase life are important quality attributes. Commercial flower production is concentrated around major urban and peri-urban markets. Local/Urdu name: گلاب.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
10	060312	Fresh cut carnations and buds, of a kind suitable for bouquets or for ornamental purposes	 Cut flowers	Carnations are long-lasting cut flowers used in bouquets, floral arrangements and decorative work. Pakistan has specialty flower production around urban markets, while commercial supply remains smaller than for roses. Local/Urdu name: کارنیشن.
11	060313	Fresh cut orchids and buds, of a kind suitable for bouquets or for ornamental purposes	  Cut orchids Orchids	Orchids are high-value ornamental flowers appreciated for their distinctive blooms and long-lasting display. In Pakistan they are mainly produced by specialty nurseries and protected-cultivation growers. Local/Urdu name: آرکڈ.
12	060314	Fresh cut chrysanthemums and buds, of a kind suitable for bouquets or for ornamental purposes	 Chrysanthemum-type	Chrysanthemums are popular ornamental cut flowers used for bouquets, decoration and religious or ceremonial purposes. Production is mainly undertaken by commercial flower growers near large urban markets. Local/Urdu name: داؤدی گی.
13	060315	Fresh cut lilies (Lilium spp.) and buds, of a kind suitable for bouquets or for ornamental purposes	 Cut lilies	Lilies are premium ornamental cut flowers valued for large, showy blooms and fragrance. Their production in Pakistan is relatively specialized and is mainly associated with commercial flower growers and nurseries. Local/Urdu name: للی / سوسن.
14	060319	Other fresh cut flowers and flower buds, of a kind suitable for bouquets or for ornamental purposes	  Tuberose Other flowers  Hibiscus	This residual cut-flower category covers fresh ornamental blooms other than the separately listed rose, carnation, orchid, chrysanthemum and lily lines. Supply is mainly from specialty flower growers serving urban floristry markets. Local/Urdu name: کلیان کی پھولوں / پھول.
15	060390	Cut flowers and flower buds, dried, dyed, bleached, impregnated or otherwise prepared	  Dried rose petals Dried flowers	Dried, dyed, bleached or otherwise prepared cut flowers are preserved to retain their decorative appearance for arrangements, crafts and ornamental retail. Pakistan's supply is mainly linked to specialty flower growers, florists and small processors. Local/Urdu name: پھول شدہ تیار یا خشک.
16	060420	Foliage, branches and other parts of plants, without flowers or flower buds, and grasses, mosses and lichens, fresh	 Fresh foliage	Fresh foliage, branches, grasses and related plant material are used as fillers and decorative greenery in bouquets, floral arrangements and landscaping. Production is generally associated with nurseries and flower-growing areas near urban markets.
17	060490	Foliage, branches and other parts of plants, without flowers or flower buds, dried, dyed, bleached, impregnated or otherwise prepared	 Dried plant parts	Dried or otherwise prepared foliage, branches, grasses and related plant material is used in long-lasting floral arrangements, crafts and interior decoration. Supply is mainly from specialty growers, florists and small processing businesses.
Chapter 07		Edible vegetables		
18	070110	Seed potatoes, fresh or chilled		Seed potatoes are healthy planting tubers used to establish commercial potato crops; their quality strongly affects yield and uniformity. Pakistan's main potato production base is Punjab, particularly Punjab, especially Okara, Sahiwal and adjoining districts; KP is another important production area. Local/Urdu name: for seedوٹ.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
19	070190	Other potatoes, fresh or chilled		Potato is a major food and export crop, consumed fresh and widely used for fries, chips, flakes and other processing. The principal production hub is Punjab, especially Okara, Sahiwal and adjoining districts; KP is another important production area. Local/Urdu name: آلو.
20	070200	Tomatoes, fresh or chilled	  Tomato Cherry tomato	Tomato is a widely used vegetable consumed fresh and processed into paste, sauces, juices and other foods. Production is spread across Punjab, Sindh, KP and Balochistan, with production shifting by season. Local/Urdu name: ٹماٹر.
21	070310	Onions and shallots, fresh or chilled	  Shallots Onion  Red onion	Onion and shallot are bulb vegetables used daily in cooking and also traded in fresh and dehydrated form. Major production is found in Sindh, Balochistan, Punjab and KP; important belts include Tando Allahyar/Mirpurkhas, Khuzdar and southern Punjab. Local/Urdu name: شلوت / پیاز.
22	070320	Garlic, fresh or chilled	 Garlic	Garlic is an aromatic bulb crop used as a seasoning and food ingredient, with strong demand in fresh and processed forms. In Pakistan it is mainly grown in Punjab and KP, with production also found in other vegetable-growing districts. Local/Urdu name: لہسن.
23	070390	Leeks and other alliaceous vegetables, fresh or chilled	 Leek	Leeks and related allium vegetables are mild-flavoured bulb or leafy vegetables used in soups, salads and cooked dishes. Production is relatively small and is concentrated in mainly vegetable-growing areas of Punjab and KP; commercial production is comparatively small. Local/Urdu name: گندنا / سبزیان کی خاندان پیاز لہسن.
24	070410	Cauliflowers and headed broccoli, fresh or chilled	  Cauliflower Broccoli	Cauliflower and broccoli are cool-season brassica vegetables valued for fresh consumption and food processing. Pakistan grows them mainly in Punjab, KP and Balochistan, particularly peri-urban vegetable belts. Local/Urdu name: گوبھی پھول / بروکی.
25	070420	Brussels sprouts, fresh or chilled		Brussels sprouts are small cabbage-like buds harvested from the plant stem and sold mainly as a specialty fresh vegetable. Commercial production in Pakistan is limited, with specialty growers in limited commercial production; mainly specialty vegetable growers around Punjab and northern areas. Local/Urdu name: اسپروٹس برسلز.
26	070490	Cabbages, kohlrabi, kale and similar edible brassicas, fresh or chilled	  Kohlrabi Cabbage  Red cabbage	Cabbage, kohlrabi and kale are cool-season brassica vegetables used fresh, cooked or in salads. Important production is found in Punjab, KP and Balochistan, including Swat and major peri-urban vegetable belts. Local/Urdu name: کبلی / گوبھی گانٹھ / گوبھی بند.
27	070511	Cabbage lettuce (head lettuce), fresh or chilled	 Lettuce Head lettuce	This group includes edible roots such as beetroot, salsify, celeriac and radishes, valued for salads, cooking and specialty food use. Production is mainly found in Punjab and KP vegetable-growing areas. Local/Urdu name: پتہ سلاد.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
28	070519	Other lettuce, fresh or chilled		Lettuce is a leafy salad vegetable valued for fresh consumption, especially in foodservice and modern retail. In Pakistan it is produced mainly in Punjab, particularly Lahore/Sheikhupura and nearby vegetable-growing areas, with production also in KP. Local/Urdu name: پتہ سلاد.
29	070521	Witloof chicory (<i>Cichorium intybus</i> var. <i>foliosum</i>), fresh or chilled		Witloof chicory is a pale, tightly formed leafy vegetable with a mild bitterness, commonly used in salads and cooked dishes. Pakistan has limited commercial production and no dominant national production hub. Local/Urdu name: کاسنی.
30	070529	Other chicory, fresh or chilled		Other chicory covers fresh chicory types outside the witloof category, used mainly as leafy vegetables or specialty ingredients. Domestic production is limited and scattered rather than concentrated in one major hub. Local/Urdu name: کاسنی.
31	070610	Carrots and turnips, fresh or chilled		Carrot and turnip are cool-season root vegetables eaten fresh or cooked and also used in pickles and processing. Production is concentrated in Punjab, including Faisalabad, Lahore/Sheikhupura and adjoining vegetable belts. Local/Urdu name: شلجم / گاجر.
32	070690	Salad beetroot, salsify, celeriac, radishes and similar edible roots, fresh or chilled		This group covers edible root vegetables used in salads, cooking and specialty food products. Production is mainly found in Punjab and KP, mainly specialty vegetable growers. Local/Urdu name: سبزیان والی جڑ دیگر / مولی / چقندر.
33	070700	Cucumbers and gherkins, fresh or chilled		Fresh cucumbers are crisp salad vegetables, while gherkins are smaller types commonly destined for pickling. Pakistan produces them mainly in Punjab and Sindh, with additional production in KP and protected-cultivation units. Local/Urdu name: گھیرکن / کھیرا.
34	070810	Peas (<i>Pisum sativum</i>), fresh or chilled		Fresh green peas are tender legumes sold for household consumption, foodservice and processing. Key production is found in Punjab, especially Okara, Sahiwal and Faisalabad, with additional production in KP. Local/Urdu name: مٹر.
35	070820	Beans (<i>Vigna</i> spp., <i>Phaseolus</i> spp.), fresh or chilled		Fresh beans are tender legume vegetables used in household cooking, foodservice and processing. Production is mainly in Punjab and KP, including Swat and other vegetable-growing valleys. Local/Urdu name: پھلیان / لوبیا.
36	070890	Other leguminous vegetables, shelled or unshelled, fresh or chilled		Leguminous vegetables are edible pod or shelled legumes harvested while tender and used fresh or processed. Pakistan produces these mainly across Punjab and KP, including Swat and other vegetable-growing valleys. Local/Urdu name: نما لوبیا / سبزیان.
37	070910	Fresh or chilled globe artichokes		Globe artichoke is a specialty vegetable harvested for its tender flower head and used in premium foodservice and processing. Pakistan has limited commercial production, with no major national production hub. Local/Urdu name: آرٹچوک.
38	070920	Asparagus, fresh or chilled		Asparagus is a premium vegetable harvested for its tender shoots and sold fresh or processed. Production in Pakistan remains limited and is mainly associated with specialty growers. Local/Urdu name: اسپراگس.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
39	070930	Aubergines (egg-plants), fresh or chilled	 	Aubergine, commonly called eggplant or brinjal, is a warm-season vegetable used in curries, grilling and food processing. It is widely grown in Punjab and Sindh, with widespread cultivation in vegetable-growing districts. Local/Urdu name: بیکنگ.
40	070940	Celery other than celeriac, fresh or chilled		Celery is a crisp, aromatic vegetable whose stalks and leaves are used in salads, soups, sauces and food processing. Pakistan has limited specialty production, mainly around urban vegetable markets. Local/Urdu name: سیلری.
41	070951	Mushrooms of the genus Agaricus, fresh or chilled	 	Agaricus, commonly called the button mushroom, is a cultivated edible fungus sold fresh and used in cooking and foodservice. Pakistan's commercial production is mainly controlled-environment based and located near major urban markets. Local/Urdu name: مشروم.
42	070952	Mushrooms of the genus Boletus, fresh or chilled		Boletus mushrooms are specialty edible fungi valued for their distinctive flavour and culinary use. Pakistan has very limited commercial production of this type, so availability is niche and may be import dependent. Local/Urdu name: مشروم.
43	070953	Mushrooms of the genus Cantharellus, fresh or chilled		Cantharellus, or chanterelle-type mushrooms, are specialty edible fungi prized for their aroma and culinary applications. Pakistan has no established large commercial production hub for this species. Local/Urdu name: مشروم.
44	070954	Shiitake (Lentinus edodes), fresh or chilled		Shiitake (Lentinus edodes), fresh or chilled is a horticultural/agri-food product used in food, processing, trade or other value-added applications. Its production and availability in Pakistan vary by crop and region; no single dominant production hub is identified for this HS category. Local/Urdu name: مشروم شیتاکے.
45	070955	Matsutake (Tricholoma matsutake, Tricholoma magnivelare, etc.), fresh or chilled		Matsutake (Tricholoma matsutake, Tricholoma magnivelare, etc.), fresh or chilled is a horticultural/agri-food product used in food, processing, trade or other value-added applications. Its production and availability in Pakistan vary by crop and region; no single dominant production hub is identified for this HS category. Local/Urdu name: مشروم ماتسوتاکے.
46	070956	Truffles (Tuber spp.), fresh or chilled		Truffles are highly valued specialty fungi used in premium cuisine because of their intense aroma and flavour. Pakistan has no established commercial truffle-production hub, making this a niche/import-oriented product. Local/Urdu name: ٹرفل.
47	070959	Other mushrooms and truffles, fresh or chilled	  	This line covers specialty mushrooms and truffles not separately classified, generally valued for distinctive flavour and premium culinary use. Domestic commercial production is limited and largely niche. Local/Urdu name: مشروم / ٹرفل.

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

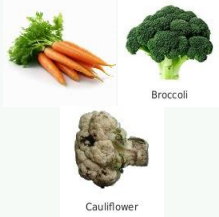

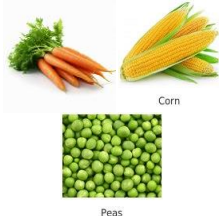

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
48	070960	Fruits of the genus <i>Capsicum</i> or of the genus <i>Pimenta</i> , fresh or chilled	    Green chilli Green capsicum Capsicum Red chilli	Capsicum and related peppers are used fresh as vegetables and for flavour, colour and processing. Production is concentrated in Punjab and KP, including protected-cultivation and specialty vegetable areas. Local/Urdu name: مرج شمله / مرج.
49	070970	Spinach, New Zealand spinach and orache spinach (garden spinach), fresh or chilled	 Spinach	Fresh spinach and related leafy greens are fast-growing vegetables eaten fresh or cooked and also suitable for freezing. Pakistan produces them mainly in Punjab and KP cool-season vegetable belts. Local/Urdu name: پالک.
50	070990	Fresh or chilled vegetables (Others)	  Okra Bitter gourd	Fresh or chilled vegetables (Others) is a horticultural/agri-food product used in food, processing, trade or other value-added applications. Its production and availability in Pakistan vary by crop and region; no single dominant production hub is identified for this HS category.
51	070991	Globe artichokes, fresh or chilled	 Globe artichoke	This is the same globe-artichoke crop in a separately classified fresh/chilled tariff line; the edible flower head is valued in premium foodservice and processing. Pakistani production remains limited and specialty in nature. Local/Urdu name: آرٹچوک.
52	070992	Olives, fresh or chilled		Fresh olives are harvested either for table use or for extraction of olive oil. Pakistan's emerging olive belt is centred on Pothohar Punjab and selected areas of KP and Balochistan. Local/Urdu name: زیتون.
53	070993	Pumpkins, squash and gourds (<i>Cucurbita</i> spp.), fresh or chilled	   Pumpkin Bottle gourd Squash	Pumpkins, squash and gourds are warm-season vegetables used fresh, cooked and in processed foods. They are widely cultivated in Punjab and Sindh, with widespread summer vegetable cultivation. Local/Urdu name: اسکواش / کدو.
54	070999	Other vegetables, fresh or chilled	   Okra Sweet corn Bitter gourd	mix vegetables, fresh or chilled is a horticultural/agri-food product used in food, processing, trade or other value-added applications. Its production and availability in Pakistan vary by crop and region; no single dominant production hub is identified for this HS category.
55	071010	Potatoes (uncooked or cooked by steaming or boiling in water), frozen	 Potato (frozen)	Frozen potatoes are cleaned, blanched or cooked as appropriate and frozen to provide a convenient year-round ingredient for retail and foodservice. Raw material is mainly sourced from Punjab, especially Okara and Sahiwal, with production also in KP. Local/Urdu name: آلو.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
56	071021	Peas (<i>Pisum sativum</i>), frozen	 Peas (frozen)	Frozen green peas are cleaned and frozen soon after harvest to retain colour, flavour and texture for year-round use. Raw material is mainly sourced from the principal pea-growing areas of Punjab and KP. Local/Urdu name: مٹر.
57	071029	Other leguminous vegetables, frozen	 Beans (frozen)	Leguminous vegetables are edible pod or shelled legumes harvested while tender and used fresh or processed. Pakistan produces these mainly across Punjab and KP, including Swat and other vegetable-growing valleys. Local/Urdu name: نما لوبيا / سبزیاں.
58	071030	Spinach, New Zealand spinach and orache spinach (garden spinach), frozen	 Spinach (frozen)	Frozen spinach and related leafy greens are blanched and frozen to retain quality for year-round household, foodservice and processing use. Raw material is mainly sourced from Punjab and KP. Local/Urdu name: پالک.
59	071080	Vegetables, uncooked or cooked by steaming or by boiling in water, frozen (excl. potatoes, leguminous vegetables, spinach, New Zealand spinach, orache spinach, and sweetcorn)	 Broccoli Cauliflower	This line covers frozen vegetables other than the specifically listed potato, legume, spinach and sweetcorn categories. The products are prepared and frozen to retain quality, with raw material generally sourced from Pakistan's major vegetable belts in Punjab, Sindh and KP. Local/Urdu name: سبزیاں مختلف.
60	071090	Mixtures of vegetables, frozen	 Corn Peas	Frozen vegetable mixtures combine cleaned, cut vegetables that are blanched and frozen to preserve quality and extend shelf life. Raw material is sourced from Pakistan's main vegetable-growing belts, particularly Punjab, Sindh and KP. Local/Urdu name: سبزیاں مختلف.
61	071110	Onions provisionally preserved, e.g. by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions, but unsuitable in that state for immediate consumption	 Onion (in brine)	Onions, e.g. by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions, but unsuitable in that state for immediate consumption are temporarily preserved in brine or another solution to protect quality before further processing. The raw material is sourced from Pakistan's relevant vegetable-growing areas. Local/Urdu name: پیاز / شلوت.
62	071120	Olives provisionally preserved, but unsuitable in that state for immediate consumption	 Olives (in brine)	Provisionally preserved olives are cured or held in brine or another solution before final preparation, helping develop their characteristic flavour and extend shelf life. Pakistani raw olives increasingly come from the country's emerging olive belt. Local/Urdu name: زیتون.
63	071130	Capers provisionally preserved, e.g. by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions, but unsuitable in that state for immediate consumption		Capers, e.g. by sulphur dioxide gas, in brine, in sulphur water or in other preservative solutions, but unsuitable in that state for immediate consumption are temporarily preserved in brine or another solution to protect quality before further processing. The raw material is sourced from Pakistan's relevant vegetable-growing areas. Local/Urdu name: کبیر / سبزیاں اچاری.

253	200971	Apple juice, of a Brix value not exceeding 20, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit)	 Apple  Fruit juice	Apple juice is an unfermented beverage made from pressed apples and used directly or in blended drinks. Pakistani apples are mainly sourced from Balochistan (Ziarat, Kalat, Pishin/Quetta belt), KP/Swat and Gilgit-Baltistan. Local/Urdu name: جوس کا سیب.
254	200979	Other apple juice, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit)	 Apple  Fruit juice	Apple juice is an unfermented beverage made from pressed apples and used directly or in blended drinks. Pakistani apples are mainly sourced from Balochistan (Ziarat, Kalat, Pishin/Quetta belt), KP/Swat and Gilgit-Baltistan. Local/Urdu name: جوس کا سیب.
255	200980	Juice of fruit or vegetables, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit, mixtures, and juice of citrus fruit, pineapples, tomatoes, grapes, incl. grape must and apples)	 Pomegranate  Fruit juice  Vegetable juice	Prepared tomato products are processed forms of tomato designed for longer shelf life and convenient use in cooking and food manufacturing. Raw tomatoes are sourced from Punjab, Sindh, KP and Balochistan, with production shifting by season. Local/Urdu name: جوس کا سبزیوں یا پھل مختلف.
256	200981	Juice of cranberries or other fruits of the genus Vaccinium, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit)	 Vaccinium berries  Fruit juice	Prepared cranberries are sweet-tart fruit products used in bakery, beverages, sauces and snack foods. Pakistan has no significant commercial cranberry production hub, so raw material is largely import based. Local/Urdu name: بیری کرین / جوس کا پھلوں ویکسنیم.
257	200989	Juice of any other single fruit or vegetable, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit)	 Pomegranate  Fruit juice  Vegetable juice	Single-fruit, single-vegetable and related juices are liquid products made from one principal raw material and used in beverages, foodservice and further processing. Raw material is sourced from the corresponding Pakistani fruit or vegetable-growing areas. Local/Urdu name: جوس کا سبزیوں یا پھل مختلف.
258	200990	Mixtures of juices, unfermented, whether or not containing added sugar or other sweetening matter (excluding containing spirit)	 Orange  Apple  Mixed juices	Juice mixtures combine two or more fruit or vegetable juices to create a balanced flavour profile and are used as beverages or food ingredients. Raw materials can be sourced from several Pakistani fruit and vegetable production belts. Local/Urdu name: مرکب کا جوس کے پھلوں مختلف.
Chapter 12		Oil seeds; miscellaneous grains		

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
259	121110	Liquorice roots, fresh or dried, whether or not cut, crushed or powdered		Liquorice is an aromatic root used in traditional preparations, flavouring and herbal products. In Pakistan, supply is mainly associated with wild/limited production in arid and semi-arid areas; no major organized commercial hub and remains relatively limited. Local/Urdu name: ملیٹھی.
260	121120	Ginseng roots, fresh, chilled, frozen or dried, whether or not cut, crushed or powdered		Ginseng is a medicinal root valued for traditional health and herbal applications. Pakistan has no established commercial ginseng production hub, so commercial supply is mainly import based. Local/Urdu name: جنسینگ.
261	121150	Ephedra plants and parts thereof, incl. seeds and fruits, fresh, chilled, frozen or dried, whether or not cut, crushed or powdered		Ephedra is a medicinal/aromatic plant whose dried parts have specific pharmaceutical and traditional uses. In Pakistan it occurs mainly in dry mountainous areas, but it is not a mainstream commercial horticultural crop. Local/Urdu name: اسپینڈ / افیدرا.
262	121160	Bark of African cherry "Prunus africana", fresh, chilled, frozen or dried, whether or not cut, crushed or powdered		Prunus africana is a medicinal tree species whose bark is traded for pharmaceutical applications. It is not a commercial Pakistani crop and there is no established domestic production hub. Local/Urdu name: چھال کی چیری افریقی.
263	121190	Plants, parts of plants, incl. seeds and fruits, used primarily in perfumery, in pharmacy or for insecticidal, fungicidal or similar purposes, fresh, chilled, frozen or dried, whether or not cut, crushed or powdered (excl. ginseng roots, coca leaf, poppy straw, ephedra and bark of African cherry)		Ginseng is a medicinal root valued for traditional health and herbal applications. Pakistan has no established commercial ginseng production hub, so commercial supply is mainly import based.
264	121230	Apricot, peach "incl. nectarine" or plum stones and kernels		Apricot, peach and plum stones and kernels are by-products of fruit processing that can be used for kernels, oils and other value-added applications. Raw material is available from Pakistan's stone-fruit belts, including Balochistan, KP and upland Punjab. Local/Urdu name: گتھلیاں کی آلوچے یا آڑو خوبانی، / مغز.
265	121291	Sugar beet, fresh, chilled, frozen or dried, whether or not ground		Sugar beet is a high-sugar root crop mainly associated with sugar production and industrial processing rather than fresh-food markets. Pakistan has limited cultivation in suitable irrigated/cooler areas and no major horticultural export hub. Local/Urdu name: چقندر / بیت شوگر.
266	121294	Chicory roots, fresh, chilled, frozen or dried, whether or not ground		Chicory root is used as a food ingredient, roasted beverage substitute and source of inulin. Commercial production in Pakistan is limited and there is no established major production hub. Local/Urdu name: کاسنی.

HORTICULTURE PRODUCTS

6-DIGIT HS CODES (8-DIGIT Pakistan Customs Tariff (PCT) LINES CONSOLIDATED)

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
267	121299	Fruit stones and kernels and other vegetable products, incl. unroasted chicory roots of the variety cichorium intybus sativum, of a kind used primarily for human consumption, n.e.s.	 Tamarind  Fruit kernels	Apricot, peach and plum stones and kernels are by-products of fruit processing that can be used for kernels, oils and other value-added applications. Raw material is available from Pakistan's stone-fruit belts, including Balochistan, KP and upland Punjab. Local/Urdu name: گٹھلیاں / مصنوعات نباتاتی دیگر
Chapter 15		Vegetable fats and oils – oils extracted directly from fruits		
268	150920	Extra virgin olive oil and its fractions	 Extra virgin olive oil	Extra virgin olive oil is the highest-quality edible olive oil obtained directly from olives by mechanical means, with strict quality parameters including acidity and sensory characteristics. Pakistan's emerging olive-oil base is Pothohar Punjab (Chakwal, Attock, Mianwali) and parts of KP and Balochistan, including Loralai, Zhob, Khuzdar, Killa Saifullah and Musa Khel. Local/Urdu name: تیل کا زیتون
269	150930	Virgin olive oil and its fractions	 Virgin olive oil	Virgin olive oil is mechanically extracted from olives without chemical refining and retains the natural flavour and characteristics of the fruit. Pakistani raw olives are mainly sourced from Pothohar Punjab and selected areas of KP and Balochistan. Local/Urdu name: تیل کا زیتون
270	150940	Other virgin olive oils and their fractions	 Other virgin olive oil	Other virgin olive oils are mechanically obtained from olives but fall outside the specific extra-virgin classification. Pakistan's emerging raw-olive base is concentrated in Pothohar Punjab and selected areas of KP and Balochistan. Local/Urdu name: تیل کا زیتون
271	150990	Other olive oil and its fractions, whether or not refined, but not chemically modified	 Olive oil	Olive oil is an edible oil extracted from olives and marketed in several grades according to extraction and refining. Pakistan's domestic olive industry is developing around Pothohar Punjab (Chakwal, Attock, Mianwali) and parts of KP and Balochistan, including Loralai, Zhob, Khuzdar, Killa Saifullah and Musa Khel. Local/Urdu name: تیل کا زیتون
272	151010	Crude olive pomace oil	 Olive pomace oil (crude)	Crude olive pomace oil is recovered from olive pomace—the solid residue left after primary oil extraction—and is further processed for edible or industrial uses. Its raw material comes from Pakistan's growing olive-oil processing areas. Local/Urdu name: تیل کا تفالے کے زیتون
273	151090	Other olive pomace oils and fractions, whether or not refined	 Olive pomace oil	Other olive pomace oils are processed from the residual pomace after olive extraction and can be used in food, cosmetic or industrial applications depending on grade. The raw material base is linked to Pakistan's emerging olive-growing regions. Local/Urdu name: تیل کا تفالے کے زیتون
274	151110	Crude palm oil		Crude palm oil is the primary oil obtained from the fruit of oil palms and is widely used in edible oils, frying, food manufacturing and oleochemical industries. Pakistan has no significant domestic oil-palm production base, so supply is predominantly import based. Local/Urdu name: آئل پام

Sr. No.	HS Code (6-Digit)	Product Name	Product Picture(s)	Remarks
275	151190	Palm oil and its fractions, whether or not refined (excluding crude)		Refined or otherwise processed palm oil and its fractions are widely used in cooking, bakery, confectionery, food manufacturing and industrial applications. Pakistan's commercial supply is predominantly import based because domestic oil-palm production is not significant. Local/Urdu name: آئل پالم.
276	151311	Crude coconut (copra) oil	 Coconut / copra Coconuts	Crude coconut oil is extracted from coconut flesh/copra and is used in food, cosmetics, personal care and industrial products. Pakistan's domestic coconut raw material is mainly produced in Sindh and coastal Balochistan. Local/Urdu name: تیل کا ناریل.
277	151319	Coconut (copra) oil and its fractions, whether or not refined (excluding crude)	 Coconut / copra	Refined or otherwise processed coconut oil and its fractions are used in food, personal care, cosmetics and industrial applications. Domestic raw material comes mainly from Sindh and coastal Balochistan, supplemented where necessary by imported copra. Local/Urdu name: تیل کا ناریل.
278	151321	Crude palm kernel or babassu oil	 Oil Palm Trees	Crude palm-kernel or babassu oil is obtained from oil-bearing kernels and is used mainly in food, cosmetics and oleochemical industries. Pakistan has no significant commercial production base for these oil crops, so supply is largely import based. Local/Urdu name: تیل کا باباسو / گتھلی کی پام.
279	151329	Palm kernel or babassu oil and their fractions, whether or not refined (excluding crude)		Processed palm-kernel or babassu oils and their fractions are used in food, cosmetics, soaps and oleochemical products. Pakistan has no established domestic production hub for these oil crops and commercial supply is mainly import based. Local/Urdu name: تیل کا باباسو / گتھلی کی پام.
280	151590	Other fixed vegetable fats and oils and their fractions (including avocado oil)	 Avocado	Avocado oil is pressed from avocado pulp and is valued for food, cosmetics and premium health-oriented products. Pakistan's avocado cultivation is still emerging, with no established large-scale oil-production hub. Local/Urdu name: آئل ایووگاڈو مثلاً تیل، نباتاتی مختلف.
Chapter 33		Essential oils – extracted directly from citrus fruit peel		
281	330112	Essential oils of orange	 Orange  Essential oil	Orange essential oil is a concentrated aromatic oil commonly obtained from orange peel and used in beverages, flavours, fragrances, cleaning products and cosmetics. Pakistan's raw-material base is citrus-processing areas of Punjab, particularly Sargodha and adjoining districts, provide the main raw material base. Local/Urdu name: تیل ضروری کا مالے / سنترے.
282	330113	Essential oils of lemon	 Lemon  Essential oil	Lemon essential oil is an aromatic citrus oil obtained mainly from lemon peel and used in flavours, fragrances, cosmetics and cleaning products. Raw material is available from Pakistan's citrus-growing belts, particularly Punjab. Local/Urdu name: تیل ضروری کا لیمون.
283	330119	Essential oils of other citrus fruit (including lime, mandarin / Kinnow and grapefruit)	 Essential oil	Citrus essential oils such as lime, mandarin/Kinnow and grapefruit oils are concentrated aromatic extracts from fruit peel, used in flavours, fragrances, cosmetics and other ingredients. Pakistan's main raw-material base is citrus-processing areas of Punjab, particularly Sargodha and adjoining districts, provide the main raw material base. Local/Urdu name: تیل ضروری کا وغیرہ چکوترا / کینو / لائم.
