CITRUS RESEARCH INSTITUTE SARGODHA

Transforming Pakistan's Citrus Industry Through Research & Innovation

HEALTHY PLANTS | HEALTHY ORCHARDS | PROSPEROUS GROWERS

RESEARCH • INNOVATION • SUSTAINABILITY

ABOUT CRI

Established in 2004, Citrus Research Institute, Sargodha is Punjab's premier institute dedicated to citrus research, varietal improvement, disease management, nursery modernization, post-harvest technology and farmer capacity building.

- 81 Acres Research Area
- Punjab's Specialized Citrus Research Center
- Advanced Molecular Diagnostic Facilities
- Modern Screen Houses & Container Nursery

ADP PROJECT

REVIVAL OF CITRUS SECTOR IN PUNJAB

PROJECT VALUE
Rs. 1.432 BILLION

MAJOR COMPONENTS

- Citrus Revival Program
- Disease-Free Nursery Systems
- Exotic Citrus Germplasm Introduction
- Molecular Diagnostics Laboratory
- High-Density Orchards
- Integrated Pest & Disease Management
- Farmer Training & Extension Services

RECENT ACHIEVEMENTS (2024–2026)

- First Container-Grown Citrus Nursery in Punjab
- Import of 54 Exotic Citrus Varieties & Rootstocks
- Establishment of State-of-the-Art Screen Houses
- Modern Molecular Diagnostic Laboratory
- Citrus Parks & Demonstration Orchards
- Nano-Formulation Research for Citrus Health
- International Collaborations & Horizon Europe Projects

RESEARCH FACILITIES

- Molecular Diagnostics Laboratory
- Microbiology Laboratory
- Plant Pathology Laboratory
- Container Nursery Complex
- Protected Screen Houses
- Citrus Germplasm Repository
- Training & Conference Facilities
